

Overview:

Veramed is a specialist contract research organisation (CRO) to the pharmaceutical industry, focused on delivering high quality statistics and programming for the reporting of Phase I-IV clinical trials across a variety of therapeutic areas. The projects and clients we work with provide a varied and exciting challenge; this in turn enables us to help develop and enhance our employees' capabilities and gives opportunities for growth.

Location: Twickenham, London OR Alderley Edge, Manchester

Purpose:

The Statistician is responsible for creating and reviewing statistical analysis plans, statistical programming and analysis of clinical trial data.

Key Responsibilities:

The job tasks listed below outline the scope of the position. The application of these tasks may vary, based on current business needs.

- Attend internal and client study team meetings. Provide input into relevant discussions and give updates as necessary
- Communication with clients and team members to discuss requests and develop requirements
- Review and/or input into statistical analysis plans and other study related documents
- Conduct peer-review of work products from statistical colleagues
- Review and/or create specifications (for datasets and/or tables, figures and listings), provide feedback and request clarity if needed
- Review and/or create specifications for adhoc programming requests
- Planning, development and validation of SAS programs
- Statistical programming and analysis of clinical trial data. Assessment of analysis results to check statistical models have fitted, if appropriate
- Exploratory data analysis
- Maintain proficiency with respect to statistical methodology and in applying new and varied methods by attending trainings, seminars, conferences or additional reading
- Understand relevant disease states in order to enhance the level of customer focus and collaboration
- Perform work in full compliance with applicable internal and client policies, procedures, processes and training

Minimum Qualification Requirements:

- MSc or PhD in Statistics/Biostatistics (or equivalent)

Additional Requirements:

- Excellent verbal and written communication skills
- Interpersonal/teamwork skills for effective interactions
- Proficiency in using SAS or other statistical software (e.g. R)
- Self-management skills with a focus on results for timely and accurate completion of competing deliverables
- Creativity and innovation
- Demonstrated problem solving ability and attention to detail
- Ability to work independently and as part of a team

TO APPLY:

If you are interested in being part of this exciting phase in the company's growth and wish to apply, or would like further information, please email your CV to hr@veramed.co.uk

Candidates must have the legal authorisation to work in the UK.
